TALK OF JAPANESE ARMY IN BALKANS

Public Opinion in London Has Sudden Change as Regards Japanese Aid on Continent

Tokio, Oct. 13—Bulgaria's participation in the war and advices received here from London that British opinion in some quarters at least, favored the despatch of Japanese troops to the Balkans have suddenly re-opened the question in Tokio of what Japan's future course will be.

There is a strong impression here that the return from Paris today of Baron Kikujiro Ishai, the recently appointed minister of foreign affairs and previously ambassador to France, is likely to be followed by a full reconsideration of the international situation with special reference to Japan's policy for the preservation of her own permanent interests. Another factor that is arousing discussion on this subject is the arrival of Puges Le Roux, editor of the Paris Matin, who, although without official mission, comes it is understood with introductions from, and with approbation of M. Decaisne, the French foreign minister, to discuss military questions with prominent Japanese with a view to determining whether latest developments justify a change in Japan's decision not to send an army to aid her allies and the likelihood of despatching troops to the Balkan theatre.

Bulgars Attack Greeks

London, Oct. 14—A Rome despatch to the Chronicle says. To avoid the possibility of a conflict the Greek troops were recently withdrawn from proximity to the Bulgarian frontier. Taking advantage of this retirement bands of Bulgarians are now reported raiding into north Greek territory in the direction of the river Vardar at a point adjoining the Serbian territory. A Greek force has been sent in pursuit of these marauders.

Another Zeppelin Raid

London, Oct. 14—Official—A zeppelin raid made yesterday evening over a portion of London dropping bombs. Some of the bombs were incendiary but did little material damage. Two women and six men were killed and thirty-four were wounded. Only one soldier was killed.

Bulgarians Revolt

Geneva, via Paris, Oct. 12—About twenty Bulgarian army officers who are in Switzerland have refused to rejoin their colors. Four of the officers, including two who won honors in the war with Turkey, are in Geneva. They say they are unable to fight against Russia and Serbia.

TEUTONS RETREAT BEFORE RUSSIANS

Russia Won Important Victory Along Stripa—Desperate Fighting On All Fronts

London, Oct. 13—Reports from all the theatres of war are optimistic. The Austro-German invaders in Serbia are meeting with a stubborn resistance. Important Russian successes in Galicia have been confirmed. Ivanoff broke the German front along the Stripa and forcing the enemy to fall back thirty miles in three days. The moral effect of the German retreat upon the Balkans will be important. An indecisive battle with desperate fighting is progress in the Dvinsk region. The French are resuming their offensive in Champagne and the great fight is progressing.

DISCOVER BASES FOR SUBMARINES

German Divers Which Destroyed British Transports Had Supplies on Coast of Greece

Athens, via Paris, Oct. 13—A British agent has unearthed a submarine base in the Gulf of Nauplia, southeast Greece, from which it is believed here that submarines which recently sunk allied transports, have been receiving their supplies. The discovery was reported to the Greek authorities who immediately took over a large quantity of petroleum and other supplies at the base.

London Likes News

London, Oct. 12—The recent success on the eastern and western front has caused another wave of optimism over England. The Russian forces have enjoyed a series of successes in Dvinsk and eastern Galicia. The accuracy of their artillery demonstrates a recovery of the recent shortage of ammunition.

Bulgarian Division Destroyed

Paris, Oct. 14—Private advices are to the effect that a Bulgarian division was almost annihilated in a fierce battle near Kraguyevatz, Serbia, says a despatch to the Havas Agency from Bucharest dated Tuesday and delayed in transmission.

Sunk Seventeen Ore Boats

Stockholm, Oct. 14—Seventeen German ore steamers are missing from the Baltic sea. It is believed they were sunk by British submarines.

Paris, Oct. 13—Germans made a desperate attack on the French positions at Souchez. They were everywhere repulsed with great loss.

LEADS WORLD IN SHELL OUTPUT

Major General Sir Sam Hughes Rushes to Rescue of Canadian Munition Manufacturers

In Montreal recently D. A. Thomas, representative of Lloyd George, forecasted a reconstruction of the Canadian shell committee, and intimated that speedy delivery and reasonable prices were the conditions under which orders must be placed.

Gen. Hughes declared that he felt sure that Mr. Thomas had been wrongly reported in some important details. Mr. Thomas' intimation that "economy had to be considered and that in the past Canadian manufacturers had been slow in delivery and higher in price than either the United States or Great Britain" the minister said "was certainly not correct."

Sir Sam continued, "No shells whatever were produced in England in commercial organizations until months after Canada had made delivery. Not one shell had been produced in American commercial institutions until long after Canada had been producing enormous quantities. Canada's shell committee handled the world in this line. The regular war material manufacturers in Great Britain and the States were as far behind Canada in this respect."

OVERHEARD AROUND NEW HAZELTON

J. J. Hibbard left on Thursday night for Prince George.

Geo. Clothier came down from the Silver Cup mine Thursday afternoon having completed his work for this year. The property is in shape to resume operations in the spring.

A carload of ore was shipped from the American Boy and the Sunrise mines the first of this week. The Sunrise is continuing operations for some time and will be ready for a bigger tonnage next year.

Services Sunday Night

Rev. C. A. Mitchell arrived on Thursday evening last and on Sunday evening will occupy the pulpit in the Presbyterian church at the regular hour of 7.30. Mr. Mitchell is by no means a stranger in northern B. C. About a dozen years ago he made a trip on horseback from Quesnel to a point this side of Morricetown. It was he who organized the congregation at Quesnel where Rev. D. R. McLean now is located. Mrs. Mitchell will be here in two or three weeks.

GERMANS DIRECT BULGARIAN ARMY

Several Regiments Dislike Hun Domination and Mutiny Results—Leaders Quarrel

Rome, via Paris, Oct. 12—Bulgaria is entirely in the hands of German officers, says a Bucharest correspondent. Major Baron von Der Goltz, son of the German field marshal, who is attache at Sofia, quarrelled with Premier Radoslavoff, because the premier asked that Germany be the first to attack Serbia, while von Der Goltz decided that Bulgaria start the offensive. It is also reported that several Bulgarian regiments have mutined and left their quarters singing the Russian National Anthem.

FURTHER DETAILS GIVEN OF ATTACK

Germans Did Not Get Within Forty Yards of Allied Trench Works in Attack on Hulloch

London, Oct. 12—Further information shows that the German attack on the British front south of LaBasse canal on the 8th was made in great strength. The main German effort was made against Chalk pit north of Hill 70 and between Hueluch and Hohenzollern redoubt. In the Chalk pit attack the enemy assembled behind some woods which lie from 300 to 500 yards off the British trenches. Between these woods and the line the attack was stopped by a combined rifle, machine gun and artillery fire. Not a man got within forty yards of our trenches.

Gets His Passports

London, Oct. 13—Official—His Majesty's government announces that the Bulgarian minister has been handed his passports and diplomatic relationships between Great Britain and Bulgaria have been broken off.

PREPARING A WAY FOR BIG ADVANCE

French Demolishing German Defense Works in the Artois District by Artillery Fighting

London, Oct. 14—There have been heavy artillery actions in the Artois district. The French artillery is tearing the German salients to pieces preparatory to an attack. The collapse of the Austro-German defensive on the Stripa river shows the Russian superiority when given an ample supply of ammunition. The enemy was taken by surprise, and reports indicate that they were thrown into confusion.

GREEKS ASSISTING CAUSE OF ALLIES

Turned Railways Over to French and British—Serbia Putting Up a Stubborn Defense

Paris, Oct. 14—Martial law has been proclaimed at Saloniki and Gen. Moschosmowtos has ordered the Greek soldiers to salute the French and British officers. Prince Nicholas, a brother of King Constantine was appointed military governor of the interior zone. Gen. Sarrail, commander-in-chief of the French forces in the Orient has arrived.

Athens, Oct. 14—Nish-Saloniki railway has been cut for a distance of five miles between Nish and Trahmva, fifty miles south of Nish nearest the Bulgarian frontier. The Russian troops have been withdrawn from the Romanian frontier and concentrated at Odessa.

Rome, Oct. 14—Following an interchange of views the allied action against Bulgaria begins. The allies have landed 10,000 at Saloniki and others are on their way. Greece places all her railways at the disposal of the allies. Nish reports that the Bulgarian attack on Kragujvatz ended with a massacre of the Bulgarian and Macedonian troops by the Serbian artillery. The defence of Serbia has been admirably organized. Information of a Russian invasion has caused alarm in Sofia.

Disorganized Austrians

Petrograd, Oct. 14—The war office estimates upwards of three Austrian divisions were disorganized as a result of the striking victory of the Russian forces in eastern Galicia. It characterises this success as tactical, strategic and political victory, asserting it will compel Gen. von Linsingen to regroup his forces on the whole front, which will affect operations in the entire south-eastern district.

Bulgars Declare War

London, Oct. 13—Bulgaria officially declared war on Serbia today, making the twelfth nation to enter the war. Bulgaria's war strength is 300,000. Her armies were repulsed in an invasion 24 hours before declaring war.

Petrograd, Oct. 12—The Russian forces have pierced the Austro-German lines on the Stripa river and took over 2000 men, 60 officers, 4 guns and 10 rapid firers. The Russian advance is being rapidly pushed forward.

A national Liberal convention has been announced from Ottawa for next year. It is twenty-two years since the last national Liberal convention.

The recent fair at Vancouver afforded a remarkable contrast as to the manner in which the mining and forestry departments are being respectively handled by the government of British Columbia. The forestry exhibit was one on which that department is to be congratulated. Some hundreds of dollars had been expended on getting it up, and to the visitor it was a revelation as to the value of the forest resources of the province. On the upper floor of the same building was the government mineral exhibit, confined to a small case taken from the mineral museum at Victoria, and costing the department only the amount of the transportation. Yet the mineral industry has produced greater wealth and paid more in profits than any other natural resource. The otherwise uninformed visitor would, however, judging from the exhibit, leave the building under the impression that mining in British Columbia was a side affair of no importance. Such treatment of the mineral industry is a disgrace to the department of mines at Victoria.

In view of the importance, at this time of depressed business conditions in British Columbia, that the government should make a special effort to promote the mineral industry, the Vancouver board of trade has been active in making representations to that effect. It was, therefore, with some surprise that the chairman of the mining committee of the board, Nicoll Thompson, received a letter from Sir Richard McBride, minister of mines, expressing the opinion that no such action on the part of the government was necessary as he considered matters were progressing quite satisfactorily. Is it any wonder that with the minister of mines declaring for a stick-in-the-mud policy, Ontario has so far outstripped this province in its mining development? There was a time when British Columbia was "The Mineral Province of Canada," and with a progressive government policy this province could have maintained that position. Instead, Ontario adopted the progressive policy and placed its mining department in the hands of W. G. Miller, who has proved one of the best and most capable provincial or state mineralogists on the continent. The results we all know and feel.

The average British Columbia resident sneers at the mineral industry and imagines it a worse medium of financial wreckage

than real estate. The fact that active mining dates back less than 15 years, and that in these years the industry has distributed in dividends over \$25,000,000, speaks volumes. The more material fact is that in addition to the list of dividends, these companies have earned as much again in profits, which have been returned for improvements, making the total profit accounted for something like \$50,000,000, so that the total mineral production shows an average profit of 10 per cent. We do not know of any other country where the mines can show a similarly favorable result.

WIFE'S COMMANDMENTS

1. Thou shalt cherish the companion of thy misery.
2. Thou shalt love but me alone, for I am a zealous wife, and a jealous wife, and an angry wife, as occasion arises.
3. Thou shalt look on no other woman except with thine eyes shut, nor shalt thou admire blue eyes, or grey eyes, or hazel eyes, or thou shalt wear black eyes.
4. Remember the Sabbath day, more especially the day before the Sabbath day, for that day is above all days.
5. Thy life must be well insured, and thou shalt honor thy mother-in-law, so that thy days will be short in the land of the living.
6. Thou shalt rise early each Sabbath morn, light the fire, cook the food and give of the same unto thy better half in bed.
7. Thou shalt do the family washing, nurse the baby, sweep the floor and empty the coal scuttle.
8. Thou shalt be mine, and I shall be any other's I like.
9. Harken unto thy wife, for her words are wisdom, therefore bestow all thy affection on the

comrade of thy pillow.
10. Seek not to spend money; it is a snare: but give all to thy mussels, who will lay it out, and you, too, if you don't.

ANOTHER APPEAL MADE FOR FUNDS

Red Cross Society Faces Heavy Outlay by Increase of British Forces at the Many Battle Fronts

The following appeal for funds has been received by His Honor the Lieutenant-Governor of B. C.

I beg to inform you that the British Red Cross Society and the Order of St. John in view of the great demands upon their resources both in France and the Near East have decided to make an appeal throughout the empire by street and other collections upon the twenty-first day of this month. The money received from this appeal will be devoted entirely to relieving the sufferings of our wounded soldiers and sailors from home and overseas at the various seats of war.

From all parts of the King's Dominions we have already received generous assistance in our work, but with the increase of British and overseas forces at the front there is a corresponding increase in our expenditure, and we shall be truly grateful to you if you will help us by organizing an appeal and sending the proceeds to us for the objects which I have named I shall be greatly obliged if you will kindly communicate the foregoing to your government.

Their Majesties the King and Queen and Her Majesty Queen Alexandra are giving us their gracious patronage and I trust that you will also be able to see your way to help.

Certificate of Improvements

NOTICE

"VICTORIA Mineral Claim, situate in the Omineca Mining Division of Cassiar District.

Located on the Hazelton Mountain, at the head of Nine Mile creek, adjoining the Hazelton Mineral Claim on the south.

TAKE NOTICE that Green Bros., Burden & Company, agent for John C. Grant, Free Miner's Certificate No. 88646B, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 12th day of June, A.D. 1915.

(Published June 18)

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY

Deputy Minister of the Interior.

The Optimism of Advertising

A word that is frequently misused is "optimism." A man engaged in any business whatsoever who looks for success without exercising his faculties to achieve that end, is not an optimist, but a fool

Two things make advertising almost a synonym for optimism. One is that the advertiser who would be successful must be an optimist. The other is that when an advertiser loses his optimism he generally cancels his advertising.

"Business is rotten," exclaims the manufacturer, and forthwith orders all his advertising stopped, little realizing that his own action is one of the principal causes that makes business rotten.

Cancelling advertising is so easy that it is nearly always the first step toward retrenchment. The matter is seldom decided on its merits. It is impulse. Advertising must be an expense, the advertiser reasons. Therefore to cut it off effects a saving.

The stoppage of advertising in times of stress and change has two bad effects upon the business involved. It turns off immediately a method of securing new business and holding old business. In addition to that, it advertises the pessimistic views of the advertiser, and therefore spreads his own lack of

faith in himself, his country, his goods, and the future to other business men who are perhaps on the verge of doing the same thing.

Without in any way minimizing the crisis which the world is now facing, without ignoring the fact that a long, expensive war in Europe will result in a great deterioration of values and a tremendous adjustment of finance and commerce when it is over, there is nevertheless sufficient ground for believing that this country is going on, that the manufacture and consumption of goods will continue, and that the manufacturers who are enterprising, far-sighted and alert enough to take advantage of existing and new markets and to push their business as they would in ordinary times, are going to benefit by their actions.

The point is that the war will either end everything in the world or it will not. If it does not, business, among other things, must go on. In our own country it must go on now. It cannot wait until the war is over.

The real Optimist is the man who hopefully faces conditions as they are

Chas. Barrett leaves shortly to purchase a carload of cattle on the prairie. They are for his own ranch.

A number of local people took in the dance on Thanksgiving night in Hazelton and had an enjoyable time.

Rev. C. A. Mitchell, the new minister of the Presbyterian church, was left at Alert Bay last week but sent word he would be here for next Sunday, D. V.

Constable Fairbairn of Telkwa was in town a day or two on police business. While here he took advantage of the opportunity to renew acquaintance with his many old friends here.

Telkwa is now being called the "Hay and Grain Town." By the way cattle are being shipped in it will not be long before Telkwa can be called the "Hay, Grain and Cattle Town" of the Bulkley valley.

H. A. Harris and Mrs. Harris, (nee Miss Margaret Crawford) arrived home last week after a very pleasant honeymoon trip in the south. They are residing at the corner of Tenth Ave. and McLeod Street.

Red Cross Collection

Boxes are being prepared by the Red Cross ladies for the collection to be taken next Thursday in response to the appeal of the British Red Cross Society.

Freight Was Wrecked

The special freight of empty oil tanks which passed down last Friday was wrecked about twenty-seven miles this side of Prince Rupert. The train was travelling at a pretty good clip when one of the cars jumped the track. Several cars were destroyed. The spill caused the passenger train going east on Saturday to run about fourteen hours late.

Prevention of Many Fires

Ashes placed against wood, or in wooden boxes or barrels, defective chimneys, fireplaces, stoves, furnaces or pipes, overheated stoves, furnaces or pipes figure prominently in the list of causes of fall and winter fires. Such fires are in the majority of cases, caused in reality by someone's carelessness. Furnaces and

FRESH FRUIT

Bananas, Oranges, Apples, Etc. Arrive Fresh Every Saturday at The Ruddy Pool Room

and stoves are put into use without inspection or without proper protection. No provision is made for ashes or for the removal of rubbish in which sparks may alight and cause fire.

Red Cross Dance

The New Hazelton Red Cross Society met on Wednesday afternoon at the home of Mrs. R. J. Wall. It was decided to have a dance on Monday night, Nov. 1 for the benefit of the society. Fuller particulars will be given next week.

BRITAIN'S DIVERS TAKE UPPER HAND

Sink Six German Merchantmen in Two Days in the Baltic Sea—Many Allied Craft Succeeded Passing Sound

Copenhagen, Oct. 13—The Politiken says the British submarines in the Baltic Sea are causing the German merchant fleet great losses. Five steamers are now known to have been sunk, says the newspaper. How many British submarines have succeeded in getting through the narrow sound is not known, but it is evident that Germany was too late in laying the Baltic mine field. Traffic across the Baltic is in a state of disorganization.

Later—The German steamer Walter Leonhardt, of 1261 tons, was submarined by a British submarine in the Baltic, making the sixth vessel in two days.
